EDUCATION

Cochin University (CUSAT)

Bachelors Degree in Computer Science Engineering

Kochi, Kerala

Aug. 2023 – Apr. 2027

St. Antonys Public School, Anakkal

Higher Secondary (12th Grade) in PCM Stream

Kottayam, Kerala

June 2021 – Mar. 2023

EXPERIENCE

Research Internship

Council of Scientific and Industrial Research - NIIST

Pappanamcode, TVM

June 2025 – July 2025

- Explored applications of **Artificial Intelligence, Machine Learning, and NLP** in research.
- Conducted **Stock Market Analysis** and model development using real-world datasets.
- Collaborated with researchers to analyze data and implement AI-based solutions.

Student Internship

International Business Machines (IBM)

June 2025 – July 2025

- Gained hands-on exposure in **AI, Machine Learning and Project Management**
- Worked on guided learning modules involving cloud platforms and project planning.
- Contributed to small-scale collaborative projects emphasizing team-based problem-solving.

PROJECTS

GitLife | MongoDB, Express, React, Node.js

June 2025 – July 2025

- Created an interactive **life decision tracker** that functions like Git for real-life choices.
- Integrated **branching and commit visualization** to represent decision timelines.
- Winner of “**Useless Projects 2024**” Hackathon by TinkerHub; awarded a **₹60,000 scholarship**.

StudAI | AI, React, MongoDB, Node.js, Express

Sept. 2024 – Oct. 2024

- Developed an **AI-powered adaptive learning platform** that personalizes education using a scientifically designed learning-style assessment (Visual, Auditory, Kinesthetic, Mixed).
- Integrated **smart tests, stress-relief tools, and progress tracking** to enhance learning outcomes.
- Built detailed **learning analytics dashboards** for students using React, offering insights into engagement and performance.

Beyond 2048 | React, Node.js, Express, MongoDB

Aug. 2025 – Nov. 2024

- Developed an enhanced version of the classic 2048 game with multiplayer capabilities and advanced features.
- Implemented real-time gameplay synchronization and competitive leaderboard system.
- Built responsive UI with smooth animations and intuitive touch/keyboard controls for seamless user experience.

TECHNICAL SKILLS

Languages: Python, C++, JavaScript, SQL, HTML/CSS

Frameworks & Libraries: React, Node.js

Developer Tools: Git, Docker, Google Cloud Platform

Databases: MongoDB, MySQL

Core Skills: Problem Solving, Attention to Detail, Decision Making, Team Collaboration

AWARDS & HONOURS

- **Winner:** Useless Projects 2024 Hackathon – Top 22 of 600+ teams
- **Founder:** Skill Development Club, CUCEK (College Club)
- **Attendee:** IGDC 2024, Hyderabad – India’s Biggest Game Developer Conference
